

SOLAR FARM OPEN INFORMATION SESSION

Infinergy Pacific is developing a large scale solar farm east of Armidale at Metz. The development will be approximately 100 MW and will potentially provide enough energy to power 40,000 average households in New South Wales.

To find out more about our proposal for the 'Metz Solar Farm' the Infinergy Pacific project team invites you to open information sessions at:

- Hillgrove Village Hall
Wednesday 11th January, 5-7pm
- Armidale Mall
Thursday 12th January, 2-7pm

The information sessions will provide the community the opportunity to view and comment on the proposed plans. The project team will be on hand to listen to comments and answer questions.
